

Dashboard Configuration

 supportcenter.nc4.com/hc/en-us/articles/218015187-Dashboard-Configuration

User must be member of the **ETeam System Admin** group or been given the privilege **config (EDITOR)**.

1. Login to your E Team application on the operations side and go to **Administration > Configuration**.
2. Launch the General Configuration
3. Under the **Additional Info** tab select **Yes** for Dashboards Enabled?
4. Enter the Dashboard URL (EX: http://yourbuild/dashboards/dashboards_index.jsp) and **Submit**.
5. Go into the E Team application and create a new user called dashboard with the password dashboards. Assign them to the E Team Editor Group and the Dashboard Access Group and **Submit**.

Configuration Parameter field is used when the server that Dashboards is on cannot access the E Team server. Contact NC4 Support Center if this applies to your situation.

Login to your E Team application on the training side and repeat.
