

Download the Everbridge 360™ Mobile Application

Receive important communications and use Safety buttons on your mobile device.

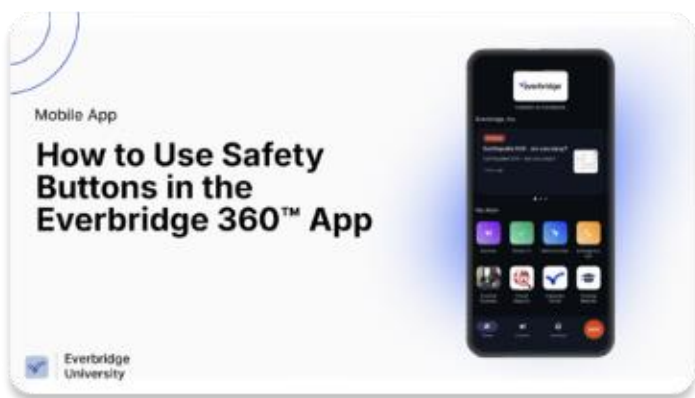

Here are some quick tips to help you get started. **Click** or **scan** the QR code under each topic for a video walk-through. For more in-depth learning, refer to the [Everbridge 360™ Mobile App Guide](#).

- ✔ Open 'Appstore' on an iOS device or 'Play Store' on an Android device.
- ✔ Search for 'Everbridge 360' and download Everbridge 360 Mobile App.
- ✔ Open the app and enter your Organization's code to access the login page
- ✔ Enter your login credentials and allow the app access to the prompted permissions.

- ✔ Open the Everbridge Mobile App and familiarize your self with its layout.
- ✔ Note the system and Safety buttons your organization has enabled for you.
- ✔ If enabled, review and confirm your Contact Profile information.
- ✔ Review and confirm your Location Settings.

- ✔ Complete any Safety Settings you are prompted to configure.
- ✔ Depending on the Organization, you may see different Safety buttons configured for you.
- ✔ Tap on the appropriate Safety buttons to make use of the Safety features.
